# HE IS SOMEBODY'S LIFELINE

Aven is an emotional support animal.

Finding him means far more than finding a pet.

He is microchipped and flagged LOST.

Any vet or shelter scans him free

PANAMA CITY BEACH → CALLAWAY

# THIS IS AVEN.

He got out on **May 19** in Panama City Beach and has been seen in **Old Callaway (32404)** since early July.

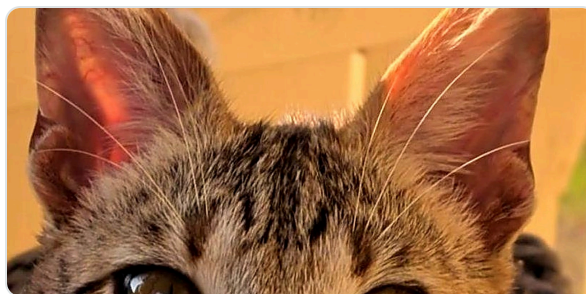

He is a tall, thin, spotted cat. He comes out at **sunrise and sunset**, near ditches and water.

## HOW TO BE SURE

### ROUND BLACK SPOTS

Spots — never stripes. Stripes = a different cat.

### VERY TALL EARS

Much taller than a normal cat's ears.

### RINGED TAIL, DARK TIP

He may look skinny or scruffy now.
